# Wave InstaStretch Setup Guide

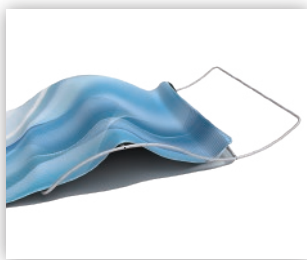

1. Connect poles by pressing & pushing together.

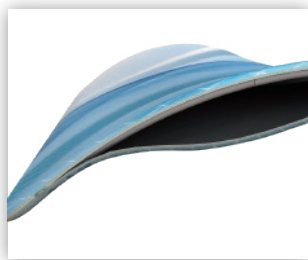

2. Connect the centre supporting poles together.

Matching numbers

3. Connect corner sections to straight sections with matching numbers.

4. Unzip print and lay image face down. Slide print on to frame like a pillow case.

5. Zip the bottom edge of the graphic beyond the centre point as shown. Zip the remaining side & bottom to meet at the corner.

6. Position lights as desired and clamp in place.
